

# PRIZELINK™

## INSTANT WIN SWEEPSTAKES

With our new social sweepstakes, PrizeLink, you can reward and encourage any consumer behavior and engage with customers. PrizeLink allows you to attract and maintain your target audience's attention by rewarding the behaviors you wish them to perform (e.g. Download your app, Like your page, Watch a video, etc.).

## HOW IT WORKS

After completing the behavior you are encouraging, customers are given a secure URL. The URL works on any Internet-capable device and any social media platform so you can reach your customers where they are. PrizeLink plugs into your existing marketing campaign, so you can be shaping consumer behavior in minutes.
